DIRECTORIES AND REFERENCE MEDIA STANDARDS OF PRACTICE

ADOPTED BY THE DIRECTORY AND REFERENCE MEDIA DEPARTMENTAL OF THE ADVERTISING FEDERATION OF AMERICA

The publisher of a Directory or Reference Medium should dedicate his best efforts to the cause of business uplift and social service, and to this end should pledge himself:

1. To consider, first, the interests of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all Departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under such headings as best describe it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what directories and reference media contain; to study public needs and make directories and reference media to supply them; to revise and standardize methods and classifications so that what is wanted may be most easily found, and the directory and reference media be made to serve their fullest use as business and social reference books and directories of buyer to seller and seller to his market.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publication.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers as well as on the number of copies circulated.

8. To co-operate with approved organizations and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. *To determine what is the highest and largest function of directories and reference media in public service and then to strive in every legitimate way to promote that function.*

NUMERICAL DIRECTORY

ITS PRACTICAL USE IS TO GIVE

Information—as to street descriptions and their location on city map

Information—as to the location by number of intersecting streets and their relation to other numbers

Information—as to the name of every householder at any given street number

Information—as to the name of every place of business and its nature at any given street number.

Information—as to the location of telephones (Δ) by street number

Information—as to the character of any street or district

Information—as to the number of families living at any number and who they are.

Information—as to the correct spelling of names when addresses are known.

Information—as to sections capable of producing the greatest amount of business by personal solicitation or "direct mail"

Finally—

It takes the "Who is it?" out of your neighborhood and adds another link to your chain of friendliness

THE PRICE & LEE CO.

NEWARK NUMERICAL DIRECTORY

EXPLANATORY NOTES

... are arranged alphabetically with their descriptions, each description followed by a numerical arrangement of house ... places of business and street intersections. (Arranged by rotation where no numbers have been assigned.)
... abbreviation "r" between the street number and the name signifies rear.
... "acant" after a number signifies that the house, office or store at that number was vacant when canvass was ...

... telephone at this number.
... d)" after street description indicates odd numbers on right side of street.
... following a householder's name indicates that information has been secured during the canvass that the house is ... some member of the family, but as the publishers cannot and do not guarantee the correctness of the information ... nor the complete absence of mistakes no responsibility for errors can be or is assumed, nor can the publishers ... other information than that shown.
